

**E 2** GOLD INC

*Lead. Innovate. Discover.*

SYMBOL - TSX-V:ETU | OTCQB: ETUGF

Corporate Presentation | Summer 2024

# Disclaimer

E2Gold Inc. (the “Company” or “E2Gold”) is a mineral exploration focused company and the Hawkins Gold Project is in the mineral exploration stage only. The degree of risk increases substantially where an issuer’s properties are in the mineral exploration stage as opposed to the development or operational stage. Due to the uncertainty that may be attached to inferred mineral resource estimates, it cannot be assumed that all or any part of an inferred mineral resource estimate will be upgraded to an indicated or measured mineral resource estimate as a result of continued exploration. Confidence in an inferred mineral resource estimate is insufficient to allow meaningful application of the technical and economic parameters to enable an evaluation of economic viability sufficient for public disclosure, except in certain limited circumstances set out in National Instrument 43-101 Standards of Disclosure for Mineral Projects (“NI 43-101”). There is no assurance that mineral resources will be converted into mineral reserves. Inferred mineral resources are considered too speculative geologically to have economic considerations applied to them that would enable them to be categorized as mineral reserves. There is also no certainty that these inferred mineral resources will be converted to the measured and indicated categories through further drilling, or into mineral reserves, once economic considerations are applied.

Some of the statements contained herein including, without limitation, financial and business prospects and financial outlooks, may constitute forward-looking statements within the meaning of Canadian and U.S. securities laws, which reflect management’s expectations regarding future plans and intentions, growth, results of operations, performance and business prospects and opportunities. Words such as “may”, “will” “should”, “could”, “anticipate”, “believe”, “expect”, “intend”, “plan”, “potential”, “continue” and similar expressions have been used to identify these forward-looking statements. These statements reflect management’s current beliefs and are based on information currently available to management. Forward-looking statements involve significant risks and uncertainties. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements including, but not limited to, changes in general economic and market conditions, unforeseen costs to the Company or delays that may arise; ongoing uncertainties relating to the COVID-19 virus; unforeseen impacts of the COVID-19 pandemic or other political, financial and/or other market considerations; any particular operating cost increase or decrease from the date of the estimation; capital markets being unfavourable for funding resulting in the Company not being able to obtain financing on acceptable terms when required or at all; unavailability of key personnel or necessary permits; Indigenous claims or

title disputes; revisions to the Company’s proposed activities as plans continue to be refined; significant expenses required to identify and acquire additional properties which are prospective for Mineral Resources; environmental risks; the competition faced by the Company; and the potential failure of the Company to generate adequate funding. In addition, risks relating to the Company and any investment in its securities include, but are not limited to the following: mineral exploration operations are subject to a high degree of risk; the Company’s operations are subject to all the hazards and risks normally encountered in the exploration, development and production of gold, precious metals and other minerals; the Hawkins Gold Project is a high risk, speculative venture; the Hawkins Option Agreement requires the Company to make multiple share issuances and cash payments by specific dates, to incur certain expenditure thresholds by specific dates, to maintain the agreement in good standing and there is no assurance the Company will be able to meet such requirements under the Hawkins Option Agreement; even in the event of the successful completion by the Company of the Phase I recommended program on the Hawkins Gold Project, there is no assurance that the results of such exploration will warrant the completion of Phase II of the recommended program; and the other risk factors identified by the Company from time to time in its public disclosure documents available on SEDAR at [www.sedar.com](http://www.sedar.com).

Although the forward-looking statements contained herein are based upon what management believes to be reasonable assumptions, management cannot assure that actual results will be consistent with these forward-looking statements. Readers should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date hereof and E2Gold Inc. assumes no obligation to update or revise them to reflect new events or circumstances, other than as required pursuant to applicable securities laws.

**An investment in the securities of the Company is speculative and involves a high degree of risk. This presentation does not constitute an offer to sell or a solicitation of an offer to buy securities in any jurisdiction or to any person to whom it is unlawful to make such offer or solicitation in such jurisdiction.**

**Readers are advised to consult their own legal counsel and other professional advisers in order to assess income tax, legal and other aspects of any investment in the Company.** A reader is not entitled to rely on parts of the information contained in this presentation to the exclusion of others.

## Technical Disclosure

Scientific and technical information regarding the Hawkins Project contained in this presentation is derived from the technical report entitled “Technical Report and Updated Mineral Resource Estimate on the Hawkins Gold Project, Derry, Ermine Hawkins, Walls, Minnipuka, Legge and Puskuta Townships, Sault Ste. Marie & Porcupine Mining Divisions, Ontario for E2Gold Inc.” with an effective date of September 10, 2020 prepared by Eugene Puritch, P.Eng., FEC, CET, Antoine Yassa, P.Geo., Jarita Barry, P.Geo., David Burga, P.Geo. and Yungang Wu, P.Geo of P&E Mining Consultants Inc. (each of whom is a “qualified person” as defined by NI 43-101), available on the SEDAR profile of the Company at [www.sedar.com](http://www.sedar.com).

# An Exciting New Opportunity for a Major Discovery

## HIGHLIGHTS:

- Committed partners – **Kinross Gold and Crescat** Capital each own 10%
- **10 additional funds** bring institutional ownership to **38%** of the shareholding
- Led by a **team** of successful explorationists and mine-builders
- **The right neighborhood** – world class mining jurisdiction along Hemlo-Timmins corrido
- **Growth potential** – at-surface 328,800 oz gold deposit<sup>1</sup> open all around, primed for new discovery

In addition to Kinross and Crescat, funds include: RAB, Alpha, Bally, Kings Road, Palos, AIS, Northern Precious Metals, Marquest, Goodmans

Note 1: Inferred Resource of 6.2 Mt grading 1.65 g/t Au, for 328,800 ounces of gold; NI 43-101 Technical Report and Updated Mineral Resource Estimate on Hawkins Gold Project, Ontario, by P&E Mining Consultants, effective date September 10, 2020.

# The Right Neighbourhood: A prolific gold belt surrounded by major mines

## Highlights

- Along 700 km long regional gold trends: 175 Moz of gold produced
- Infrastructure rich: major highways, rail lines, logging roads
- New production underway: Magino, Island, Cote

## Hawkins Project

- A district-scale project, larger than Timmins
- McKinnon Zone, **6.2Mt @ 1.65g/t for 328,800 oz Au<sup>1</sup>**, all above 150 m depth (43-101 compliant)
- Resource Based on 1980's Falconbridge drilling, open all around

# McKinnon Zone: A Hemlo Look-A-Like

**E2Gold's McKinnon Zone**, staked by Don McKinnon, a co-discoverer of the nearby Hemlo Gold Mine (26 Moz of gold produced)

# Experienced, Successful Management and Board

## Eric Owens, PhD, PGeo

### President/CEO, Director, Founder, Director

- Discovery of 7MM oz gold resources, including 3MM oz at Alexandria Minerals, leading to 2 producing mines
- 30+ years of experience in the Americas with Newmont, Noranda, BHP and Phelps Dodge

## David Good, PhD, PGeol

### Chair of the Board, Comp Committee, Independent

- Professor of Geology at Western University
- Former VP Exploration at Marathon PGM and Stillwater Canada
- 30+ years in exploration

## Carmelo Marrelli, CPA, CA, CGA

### CFO

- Principal, The Marrelli Group of Companies
- Over 20 years experience as Chief Financial officer to a number of issuers on TSX, TSX Venture Exchange, and CSE, and director of select issuers.

## Jeff Pritchard, BSc

### VP Corporate Development, Director

- Co-Founder & Executive VP of Capital Gold Corp, taking it from a penny stock to its sale of \$350M to Alamos
- Part of the executive team that grew Argonaut from \$150M to \$1B market cap
- Director of Marketing, New Jersey Devils and New York Islanders NHL teams

## Peter Botjos, PEng

### Audit Committee Chair, Independent

- Chairman of Avino Silver & Gold Mines Ltd.
- Global experience in mining industry including Consolidated Nevada Goldfields Corp., Greenstone Resources Ltd., and Kerr Addison Mines Ltd.
- Served on various boards as an independent director

## TECHNICAL ADVISORS

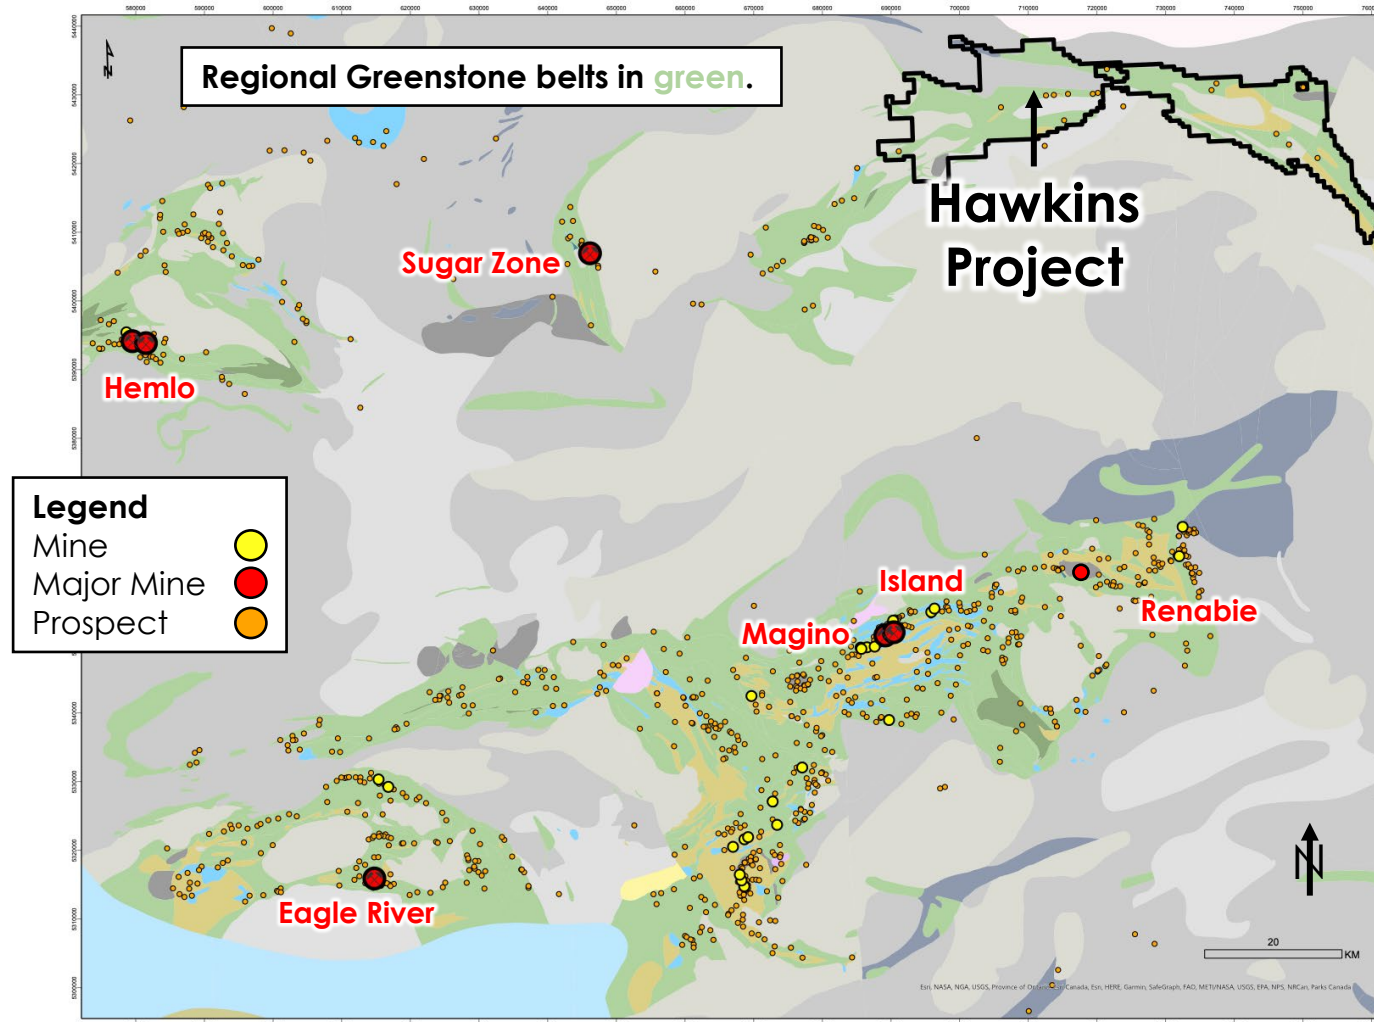

### Bruce Mackie, BSc, PGeo

Exploration success at Hemlo, Sugar Zone, and Eagle River

### Mary Louise Hill, PhD, PGeo

Structural Geologist, Orogenic Gold Systems,

# Potential for Discovery: A little-explored greenstone belt in the heart of Ontario's gold country

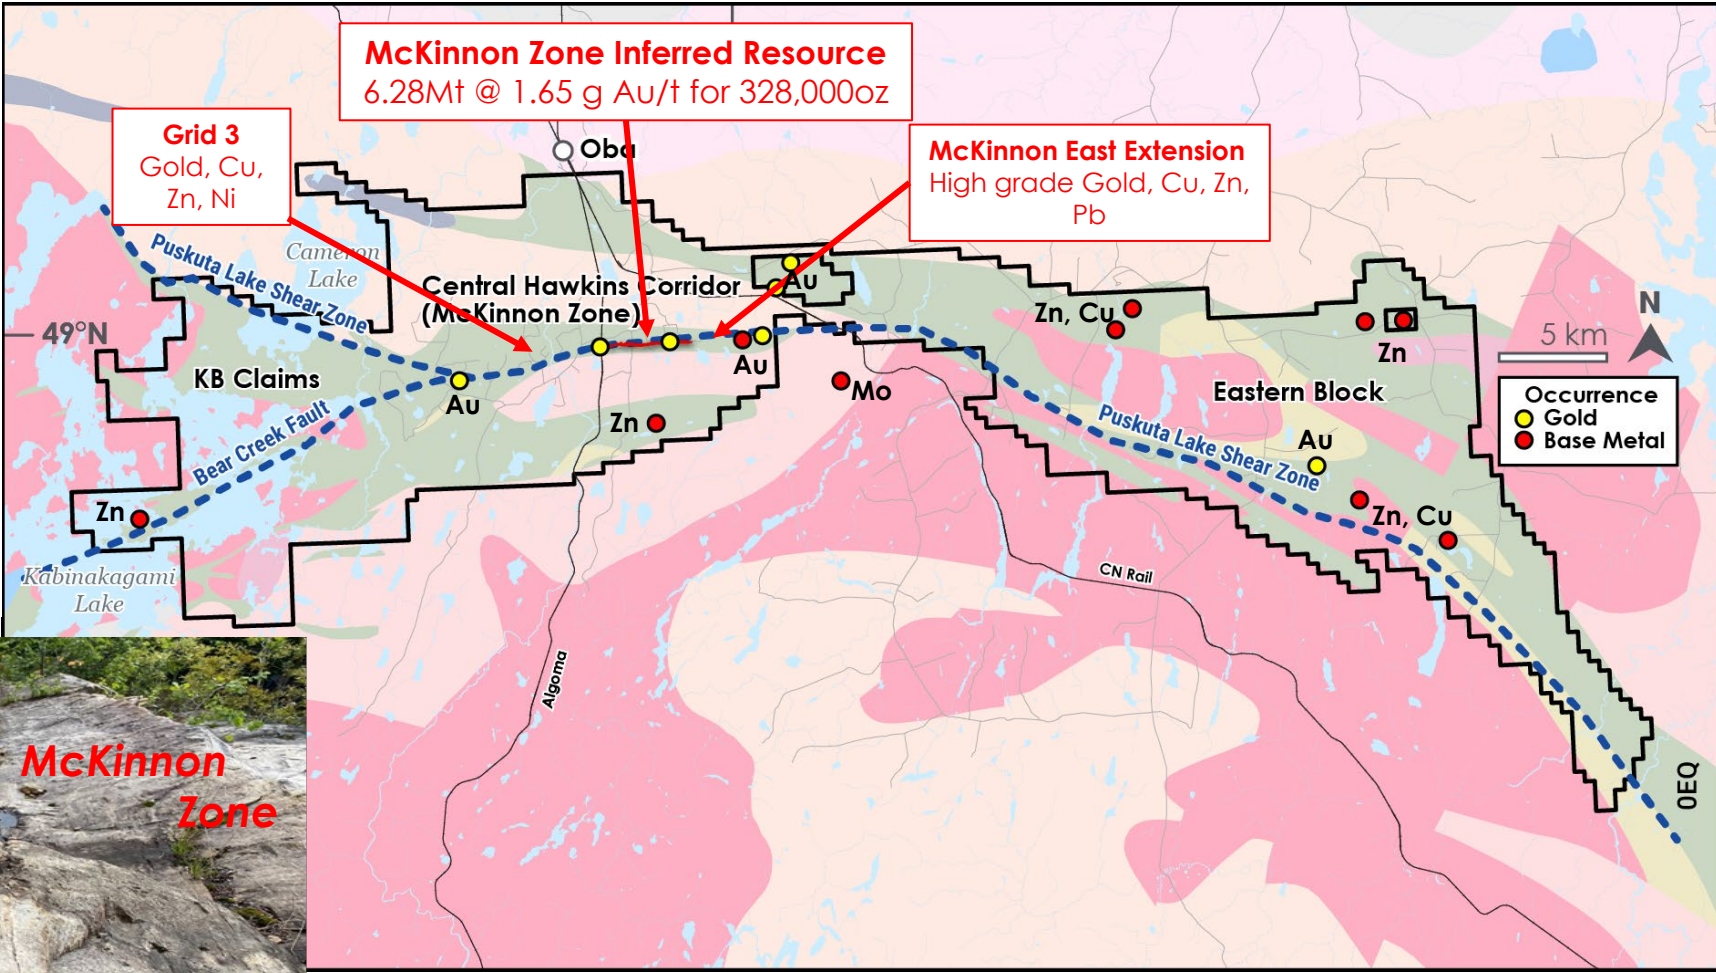

## Exploration opportunity

- Greenstone belts **host the majority of the major mines** in Eastern Canada, as is clear in this map
- Hawkins encompasses the Kabinakagami Greenstone belt, capturing the best setting for gold deposits
- Vastly underexplored compared to the other greenstone belts in the region. E2Gold sees clear potential for gold discovery here.

# Hawkins: A district-scale property with a pipeline of targets, from near term drill to early stage recon

- McKinnon Zone open along and across strike and at depth: **13 km of surface gold prospects along trend**
- Greenstone Belt with numerous gold and base metal prospects
- **New discoveries beyond the McKinnon Zone** in 2023's surface exploration program
- Next planned drilling aimed at resource expansion

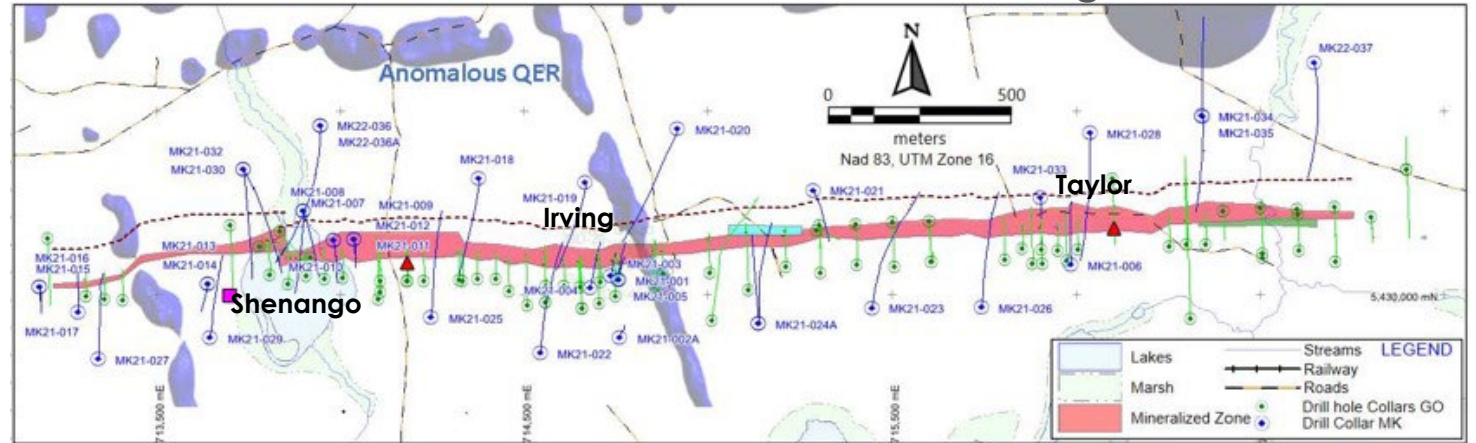

# McKinnon Growth Potential: E2G expands gold footprint to 700m depth

## At depth potential

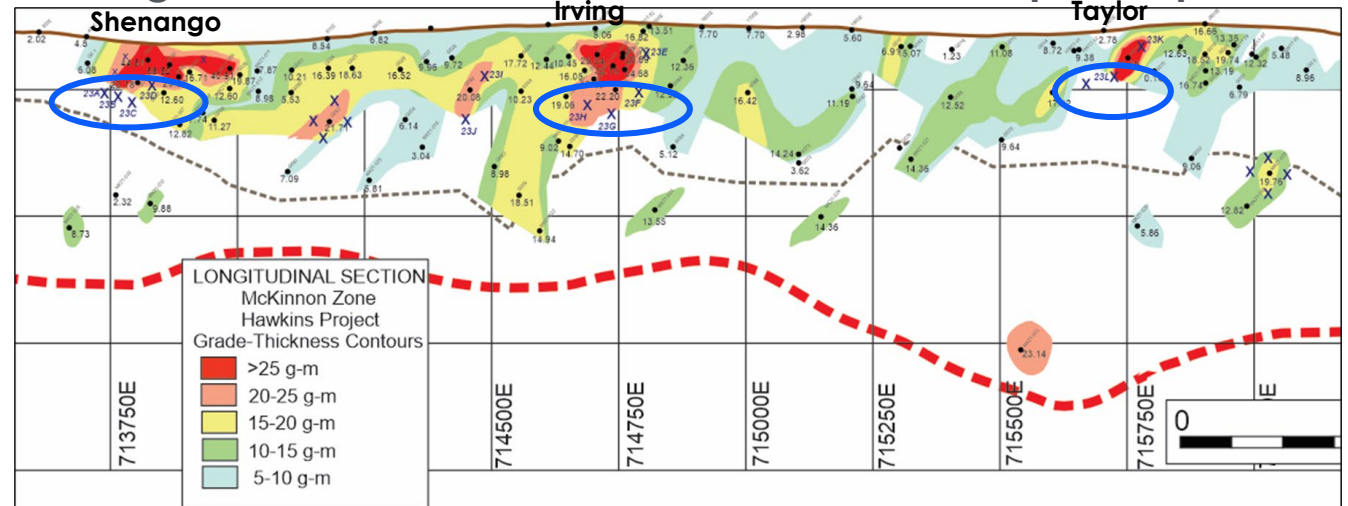

- Resource based on 1980's Falconbridge drilling: 30 m wide x 3.5 km long x 150 m depth
- In 2022, E2 drilled below resource, showed gold system continues at depth
- Focus on higher grade gold shoots

# McKinnon East Extension: New discoveries provide growth across and along strike

Sph+Au

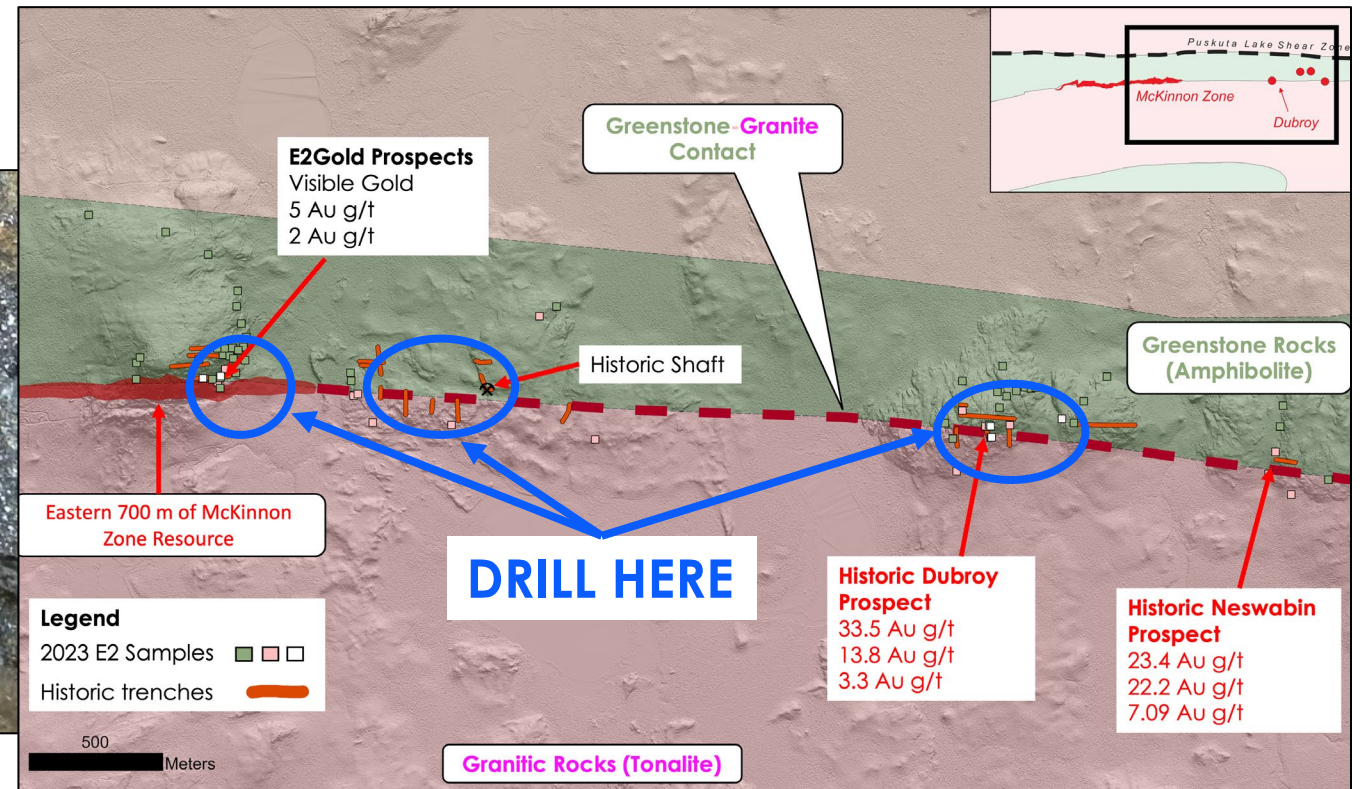

Galena

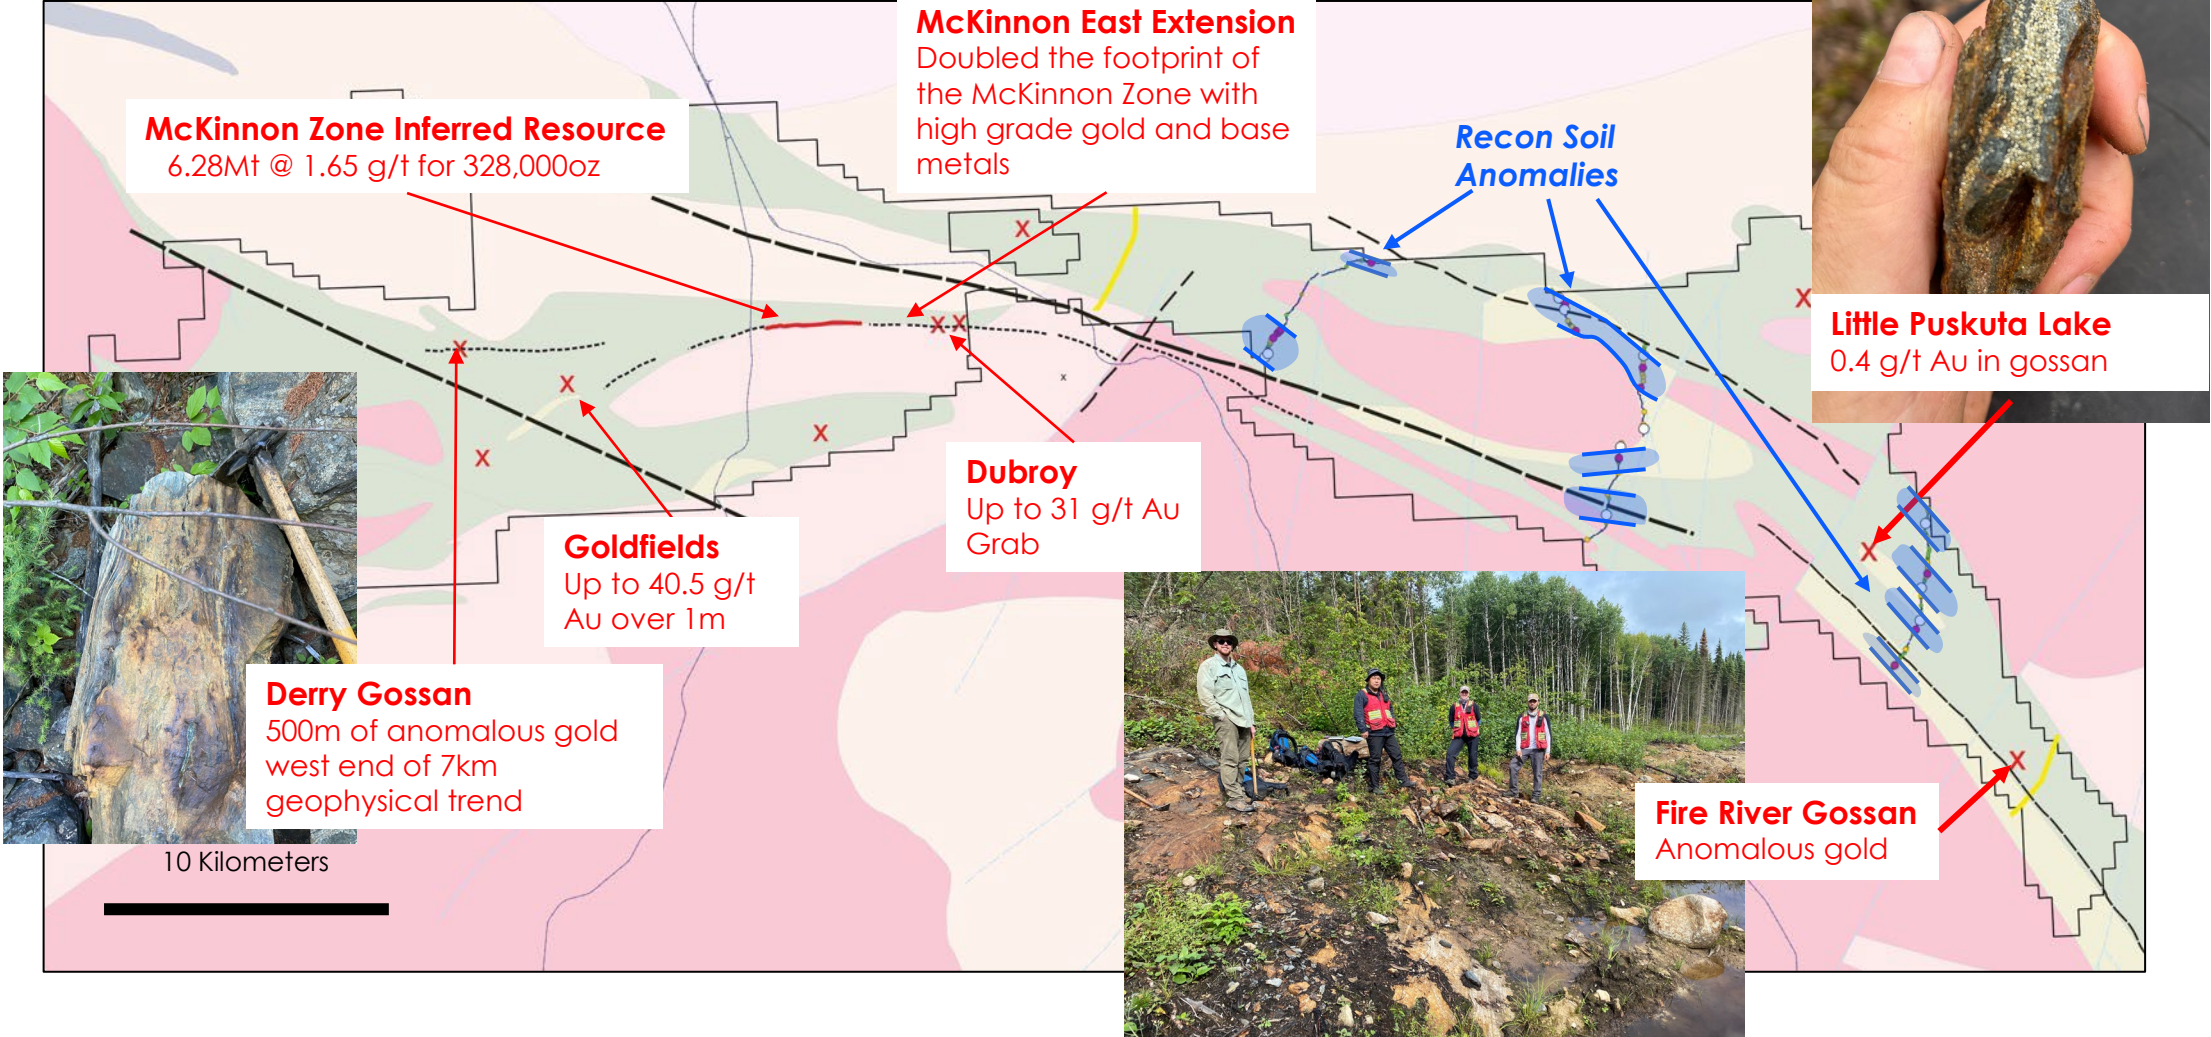

Historic Shaft

- Up to 33.5 g Au/t in prospects up to 3.5 km east of Inferred Resource
- New discovery of gold, copper, zinc, and lead in trenches and prospects east and north of the McKinnon Zone Inferred Resource
- Has never been drilled

# New discoveries beyond the McKinnon Zone: ready for low-cost exploration to delineate drill targets
